

We view our role as an extension of your risk management team to provide you an independent assessment of the ALLL process. We appreciate the trust you have placed in us.

Operational risk is present in the loan portfolio through the credit administration process. A weakness in credit administration could ultimately lead to additional risk and potential losses in the loan portfolio. Policies and procedures should be in place to support the perfecting of liens, loan documentation, insurance coverage and property taxes, and other requirements approved as a part of the credit relationship.

We will work with you to either review current policies and procedures, assist in the development of these policies and procedures or focus on a specific area of concern to enhance the current credit administration process to meet the institution's and regulatory agency expectations.

BENEFITS OF WORKING WITH INTEGRITY LOAN REVIEW

- Efficient process to save you time and money
